# YubiEnterprise Delivery API Integration Assistance

A focused and flexible consulting package designed to facilitate and expedite your integration with Yubico's YubiEnterprise Delivery API and Console.

## Enabling strong security while driving digital transformation

YubiEnterprise Delivery (YED) is a cloud-based service that provides IT teams with powerful capabilities to manage the global delivery of YubiKeys to users and accelerates the adoption of strong authentication. The YubiEnterprise Console allows users to easily order and receive YubiKeys, and its public API allows clients to quickly integrate the service into their existing IT flows and service catalogs.

Yubico Professional Services offers a targeted YubiEnterprise Delivery integration consulting package. This package includes a YubiEnterprise Delivery workshop, featuring a review of the console and API as well as operational best practices. In addition, this package offers thorough API documentation, sample code, and follow-up on-demand Technical Support Hours—all designed to help your developer team quickly and seamlessly deploy your YED integration.

Professional Services' API integration assistance package offers technical consulting in:

- Integrating your app or software platform with Yubico Enterprise Delivery
- Allowing your users to interface with the YubiEnterprise Console
- Generating an API key and calling the functions via API
- Executing a shipping request

- Using the REST API for checking your YubiKey inventory, validating mailing addresses, and having keys shipped to your users
- Testing and validating the API

The package includes a comprehensive *Recommendations and Best Practices Guide* as well as sample code to help expedite your API integration.

## Benefits

This Professional Services package offers technical and operational guidance with your YubiEnterprise Delivery integration, featuring:

### YubiEnterprise Delivery Workshop

A dedicated client workshop with Professional Services providing a thorough developer review of the YubiEnterprise Delivery API, an overview on enabling third party integrations, and operational recommendations and best practices for using the YubiEnterprise Delivery console and API.

### On-demand Technical Services Hours

Post-workshop technical services hours allowing you to engage with Professional Services developer and engineering resources for technical guidance via email or virtual meetings.
